

Post Program Planning™ Explained

Have you ever attended a great seminar or workshop, get excited and within 2 or 3 days feel deflated and disappointed?

That is precisely why I created **Post Program Planning™** for all my events.

There is nothing worse than investing hundreds or thousands of dollars for an event and coming out of it without on-going support and an action plan that helps you implement what you learned.

The **Post Program Planning™** I've created is customised for each event and specifically tailored to each individual version of the event, so that you're not getting a pre-packaged series, rather exactly what you need based on what actually took place at the seminar or workshop.

Post Program Planning™ exercises include a wide variety of tools and techniques delivered electronically and for some programs, includes physical shipments to give you an additional hands-on tactile experience.

Nothing has been spared when creating, updating and deploying the **Post Program Planning™** components. Each series is designed to ensure that you take what you learned at the seminar or workshop and apply it in your business or career immediately AND that you refine and fine tune them as you develop your own mastery and confidence.

Post Program Planning™ can last several weeks to several months. There is no set limit to the bonuses and gifts included. In many instances,

seminar and workshop participants communicate with us, sharing experiences, insights and distinctions worthy of being shared with other participants. When the contributions are deemed valuable, they are openly shared with the original source always given full credit.

By involving you in the process, **Post Program Planning™** is an essential part of the interactive experience that I create at all my seminars, workshops and events. If at any time, you see an opportunity for improvement, please provide your suggestion to us. We walk the talk of continuous and never-ending improvement. Both the **Pre Program Preparation™** and **Post Program Planning™** are the direct result of dozens of helpful suggestions that have made them what they are today.

The triumvirate of the **Pre Program Preparation™**, the live seminar or workshop event and **Post Program Planning™** is a winning combination that is truly exponential in its design and delivery. It's become the level of quality, thoughtfulness and proven methodology that you have come to expect.

We don't aim to please – we aim to surpass your expectations each and every time you register and participate in one of our events. Especially when it's the 4th or 5th time you attend the 'same' event!

We look forward to seeing you again soon.
